

# Repositorios para Debian

- [GUIA BASICA DESPUES DE INSTALAR DEBIAN 11 «BULLSEYE»](#)

## Debian 9

- Fichero original, resultado de la instalación:

[sources.list](#)

```
deb http://debian.uvigo.es/debian/ stretch main
deb-src http://debian.uvigo.es/debian/ stretch main

deb http://security.debian.org/debian-security stretch/updates main
deb-src http://security.debian.org/debian-security stretch/updates main

# stretch-updates, previously known as 'volatile'
deb http://debian.uvigo.es/debian/ stretch-updates main
deb-src http://debian.uvigo.es/debian/ stretch-updates main
```

- Fichero modificado para conseguir módulo del adaptador de red:

[sources.list](#)

```
deb http://debian.uvigo.es/debian/ stretch main contrib non-free
deb-src http://debian.uvigo.es/debian/ stretch main contrib non-free

deb http://security.debian.org/debian-security stretch/updates main contrib non-free
deb-src http://security.debian.org/debian-security stretch/updates main contrib non-free

# stretch-updates, previously known as 'volatile'
deb http://debian.uvigo.es/debian/ stretch-updates main contrib non-free
deb-src http://debian.uvigo.es/debian/ stretch-updates main contrib non-free
```

## Debian 10

- Fichero original, resultado de la instalación:

[sources.list](#)

```
# buster - oficiales
deb http://ftp.es.debian.org/debian/ buster main contrib non-free
deb-src http://ftp.es.debian.org/debian/ buster main contrib non-free

# buster - actualizaciones de seguridad
deb http://security.debian.org/debian-security buster/updates main contrib non-free
deb-src http://security.debian.org/debian-security buster/updates main contrib non-free
```

```
# buster - actualizaciones
deb http://ftp.es.debian.org/debian/ buster-updates main contrib non-free
deb-src http://ftp.es.debian.org/debian/ buster-updates main contrib non-free
```

- **Repositorios para elementos multimedia**

- Repositorios

```
# buster - debian - multimedia
# Debemos instalar previamente las claves publicas del repositorio multimedia
deb http://www.deb-multimedia.org buster main non-free
```

- **Nota.** En mis equipos antiguos la reproducción de vídeos 1080p iba descoordinada: El audio se adelantaba a la imagen y la imagen iba a golpes. Lo solucioné instalando y usando el reproductor VLC en lugar de los reproductores que venían por defecto.

- **Repositorios para VirtualBox**

- Debemos instalar previamente las claves publicas del repositorio virtualbox.

```
# wget -q https://www.virtualbox.org/download/oracle_vbox_2016.asc -O- | apt-key
add -
# wget -q https://www.virtualbox.org/download/oracle_vbox.asc -O- | apt-key add -
```

- Repositorios

```
# virtualbox
# Debemos instalar previamente las claves publicas del repositorio virtualbox
deb http://download.virtualbox.org/virtualbox/debian buster contrib
```

## Debian 12

- Mi última configuración con esta versión, preparada también para VirtualBox:

[sources.list](#)

```
deb http://deb.debian.org/debian/ bookworm-backports main non-free-firmware
contrib
deb-src http://deb.debian.org/debian/ bookworm main non-free-firmware contrib

deb http://security.debian.org/debian-security bookworm-security main non-free-
firmware contrib
deb-src http://security.debian.org/debian-security bookworm-security main non-
free-firmware contrib

deb http://deb.debian.org/debian/ bookworm-updates main non-free-firmware contrib
deb-src http://deb.debian.org/debian/ bookworm-updates main non-free-firmware
contrib

# VirtualBox
deb [arch=amd64 signed-by=/usr/share/keyrings/oracle-virtualbox-2016.gpg]
https://download.virtualbox.org/virtualbox/debian bookworm contrib
```

## Debian 13

- [Adiós sources.list, hola DEB822: cómo cambian los repos en Debian 13](#)
- [DEB822: el nuevo formato de sources.list en Debian \(y derivadas\)](#)

- Probando...

### [sources.list](#)

```
# Debian 13: sources.list Oficial
deb http://deb.debian.org/debian/ trixie main
deb-src http://deb.debian.org/debian/ trixie main
deb http://security.debian.org/debian-security trixie-security main contrib
deb-src http://security.debian.org/debian-security trixie-security main contrib
deb http://deb.debian.org/debian/ trixie-updates main contrib
deb-src http://deb.debian.org/debian/ trixie-updates main contrib

# Debian 13: Contrib & Non-Free
deb http://deb.debian.org/debian trixie main contrib non-free non-free-firmware
deb-src http://deb.debian.org/debian trixie main contrib non-free non-free-
firmware
deb http://security.debian.org/debian-security trixie-security main contrib non-
free non-free-firmware
deb-src http://security.debian.org/debian-security trixie-security main contrib
non-free non-free-firmware
deb http://deb.debian.org/debian trixie-updates main contrib non-free non-free-
firmware
deb-src http://deb.debian.org/debian trixie-updates main contrib non-free non-
free-firmware

# Debian 13: Backports
deb http://deb.debian.org/debian trixie-backports main contrib non-free non-free-
firmware
deb-src http://deb.debian.org/debian trixie-backports main contrib non-free non-
free-firmware
```

- Probando... En mi caso dejo solo los que estoy usando, puedo dejar comentados los deb-src.

### [sources.list](#)

```
# Repos oficiales no libres
deb https://ftp.debian.org/debian/ trixie contrib main non-free non-free-firmware
# deb-src https://ftp.debian.org/debian/ trixie contrib main non-free non-free-
firmware

# Actualizaciones
deb https://ftp.debian.org/debian/ trixie-updates contrib main non-free non-free-
firmware
# deb-src https://ftp.debian.org/debian/ trixie-updates contrib main non-free non-
